The News.

The unjustifiable conduct of the British cruisers in the Gulf of Mexico, continues to excite great indignation at Washington, and Congress is ready and willing to take any steps to put a stop to these proceedings. There can be no reasonable doubt that the British Government will promptly check the offending officers. Assuredly their assumed right to stop and examine all American vessels, traversing these seas, will not be submitted to one moment.

We hear from St. Louis, that the re-inforcements for our army in Utah, have commenced their march from Fort Leavenworth. It is not likely, however, that their aid will be needed to bring the Mormons to reason.

The latest accounts from Kansas represent that the Leavenworth (Free State) Constitution has been adopted by an overwhelming majority. The Pro-Slavery vote was insignificantly small. For all that, we presume that our Pro-Slavery Administration will still insist upon crowding the Lecompton Villainy down the throats of the People, but it cannot be done.

The Indians are said to be committing depredations on the borders of Nebraska, and a collision has occurred between the Kiowas and the settlers.

The Senate, yesterday, by a vote of 26 to 17, *passed* the bill for the improvement of Chicago Harbor; also the bill for the improvement of the mouth of Milwaukee river. The nays were all Democrats. It is supposed that other bills of a similar character, for different harbors on our Lakes, will also pass.—The proposition of the ultra Southern men, to withdraw our squadron from the coast of Africa, and thus give full swing to the Slave Trade, has been voted down in committee.

The New York Produce Market, yesterday, was active, though rather easier. Money plenty and stocks rather higher. In our own market, with lighter receipts of grain, there was a brisk demand, and slight improvement in prices.

The election for Directors of the La Crosse and Milwaukee R. R. was held in this city yesterday, and resulted in the choice of the Board named elsewhere, without opposition.

The weather, after several days of rain and fog, cleared up yesterday afternoon. Sunshine is greatly needed, now, to dry the roads and bring forward vegetation.

The Chicago Barrel Tragedy.

The barrel containing the remains of the unfortunate Sophia Werner, which was brought from New York by Marshall Rhem, was opened at the Recorder's Court on Tuesday, and a jury of inquest summoned. An examination was made upon the body by Drs. Treer, Isham, Checney and Shumway. The body was terribly mutilated, the head and legs being cut off and the intestines, lungs and brain removed. As means were taken to preserve the head and face no difficulty was experienced in identifying it.—The remains presented a most shocking sight, and it seems incredible that a man, in whose composition there is a particle of humanity, could be guilty of so terribly mutilating even the dead remains of a fellow being.

The following is a portion of the testimony elicited before the Coroner's Jury:

J. W. Freer, sworn—I am Professor of Anatomy at Rush Medical College; I made an examination of a dead body in the Recorder's Court Room this forenoon; found the body in a barrel; Dr. Checney and I put the body on a table; after removing a quantity of clothes we found the body in the following condition: the top of the skull had been removed; the brains had also been removed; the face was wounded on the right side of the bridge of the nose; wound was ¼ of an inch long; the bridge of the nose had been broken; the mouth had been cut in a lateral direction back as far as the ascending portion of the lower jaw; the mouth was cut on both sides; the molar teeth were all gone from the lower jaw, and the gums were hard, showing they had been gone for a long time; the incision and stomach teeth in the lower jaw were remaining; in the upper jaw one incisor remained; there were two decayed molars on the right side of the upper jaw, and three molars and one decayed in the left side of the upper jaw; we found the neck completely severed, commencing on the centre of the middle thyroid cartolage and thence through the body of the fifth vertibrae; the skin of the neck seemed to have been severed by a dull instrument; through the chest and abdomen there was an incision commencing at the top of the breast bone and extending in a straight line through the central portion of the body to the pubis; there was another incision at right angles to the former, commencing at the right side of the navel; the wall of the chest had been opened by two incisions through what are termed the costal cartelages; there was another incision through the central portion of the breast bone laying open the cavity of the chest completely; the organs of the chest had been completely removed with the exception of the right lung, and that had also been severed from its connections; the organs of the abdomen had been entirely removed as well as those of the pelvis, including the uterus and womb.

The right upper extremities—we found a cut about two inches in length on the fore part of the arm a little below the elbow joint, exposing certain veins—in one of the veins an opening was found about 1 16 of an inch in length; the left arm showed no evidences of injury. The left lower extremity. In the middle of the thigh there was a cut extending about three quarters through the limb; the thigh bone was sawed through; the knee on the same side had been unjointed and completely severed; the right lower extremity was severed in the middle of the thigh, the bone having been sawed through; the leg of the same side at the junction of the lower third with the middle third had been partially severed, apparently with some very dull instrument, as it was lacerated very much; the bones were broken as if by some heavy instrument with a hard blow. These comprise all the mutilations we found; the limbs were cut off apparently with a dull instrument; the edges of the flesh were ragged; the vertibrae was apparently sawed through; the bone of the left thigh was apparently sawed through.

George Werner, sworn—I live at No. 31 North Clark street; I knew Sophia Werner, in her lifetime; she was my brother's wife; I last saw her alive about a year ago; I have seen the body in the Court room; it is the body of Sophia Werner; Henri Jumpertz occupied room No. 20 in Fomeroy's building; I have seen property of Sophia Werner's in that room; I saw a breastpin, a clock, a watch and some cups of hers in that room; I first saw those there about 8 days after Jumpertz told me she had left town; the breast-pin was in the clock; I have seen a ring which belonged to her; Jumpertz sold it; I saw one of Mrs. Werner's ear-rings in the trunk; it was broken; Jumpertz told me Mrs. Werner was at his room; this was in March;—I do not remember on what day.

Ira Coleman, sworn—I knew Sophia Werner in her lifetime; the last time I saw her alive was last summer; she told me she was going to Milwaukee in a few days; she lived in a house belonging to me; I have seen the body in the Court room; it is the body of Sophia Werner; I knew Jumpertz; Mrs Werner told me she was married to him; she looked fleshy; she lived in the rear of a building near North Market, and took in washing.

VERDICT OF THE JURY.—At the conclusion of the examinations the case was given to the jury, who retired, and in a few minutes brought in the following verdict:

STATE OF ILLINOIS, } ss.
COOK CO. }

An investigation taken for the people of the State of Illinois, at the Court House, in the city of Chicago, in said county of Cook, on the 25th day of May, A. D. 1858, before me, George P. Hanson, Coroner in and for said county, upon the view of the body of Sophia Werner then and there lying dead, upon the oaths of twelve good and lawful men of the said county who being duly sworn to inquire on the part of the people of the State of Illinois into all the circumstances attending the death of the said Sophia Werner, and by whom the same was produced and in what manner and when and where the said Sophia Werner came to her death, do say, upon their oaths as aforesaid, from the evidence before us, that the said Sophia Werner came to her death by some means to the jury unknown, at the hands of Henry Jumpertz.

In testimony whereof we have here into set our hands Theodore Doty, Foreman; C. L. Watkins, Jacob Harris, W. Y. Lovenwig, F. P. Benjamin, J. W. Cole, J. Watkins, H. S. Wells, C. B. Maples, S. A Buel, E. Nash, J. J. Huntly.

Steamboats.

FOR CHICAGO.—Steamer *Traveller* leaves every morning, (excepting Sunday,) from Johnson & Olmsted's Dock, at 8 o'clock P. M.

FOR TWO RIVERS.—The steamer *Chicaland* leaves every morning, (excepting Sunday,) at 7 o'clock, from same place, for Two Rivers, stopping at Fort Washington, Sheboygan and Manitowoc.

FOR GRAND BAY.—The steamer *Arctic* leaves for Green Bay, from Johnson & Olmsted's dock, every Wednesday, at 5 o'clock P. M.

FOR BUFFALO.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

FOR COLLINGWOOD.—A tri-weekly line of propellers run to Collingwood, stopping at intermediate ports, and leaving this city on Monday, Wednesday and Friday of each week.

FOR OGDENSBURGH.—A similar line runs to Ogdensburgh. Gaspee & Burns, at the foot of East Water street, are the Ticket Agents for the various lines.

☞ LET EVERY BUSINESS MAN REMEMBER, that the DAILY SENTINEL has MORE THAN DOUBLE the Circulation of any other Paper in Milwaukee, and is, therefore, the GREATEST AND BEST ADVERTISING MEDIUM in the City.

The LaCrosse and Milwaukee R. R. Election.

The annual Election for Directors of the La Crosse and Milwaukee R. R., came off in this city yesterday. There was a large attendance of country stockholders, while the Eastern stockholders were also fully represented by their proxies. Mr. WM. A. PRENTICE, Mayor of this city, Judge HOWE, of Green Bay, and Mr. J. ALLEN BARBER, of Grant County, acted as inspectors of the election, under an appointment from the Governor. There were 28,700 votes cast, all of which were for the following ticket:

N. P. STANTON, Albany, N. Y.
ELI PERRY, "
ARTEMAS FISH, "
G. W. LUTHER, "
JASON H. SWAN, "
D. V. N. RADCLIFF, "
WILLIAM WATSON, "
W. E. SMITH, Fox Lake, Wis.
JOHN P. MCGREGOR, Portage, Wis.

The selection of Messrs. SMITH and MCGREGOR, to represent the home interest, will be universally acceptable. They are gentlemen of character and intelligence, and will faithfully discharge the trust confided to them. At a meeting of the Directors, held last evening, Mr. STANTON was unanimously re-elected President, and the Hon. ELI PERRY, Mayor of Albany, chosen Vice President. Mr. STANTON, the President of the Company, intends to make his home in Milwaukee.

The new Board, we understand, leave here this morning, at 8 o'clock, in a special train, to pass over the entire line of the road to La Crosse. They confidently anticipate opening the road to that point early in the fall.

Arrival of the Steamer Forester.

COMMENCEMENT OF THE STEAM FERRY LINE.—The fine Steamer *Forester*, Captain John Robertson, arrived yesterday, at this port, to take her place in the Steam Ferry Line between this City and Grand Haven, connecting with the Detroit and Milwaukee Railway. This is the inauguration of a new and important route to the Seaboard, and is an enterprise which should meet the most healthy support of our citizens.—It will not be long before this channel of transportation will be the leading one between the Atlantic Coast, and the Great West. Already a new boat is being constructed to run upon this route, and in the course of a short time, steamers of the first class will no doubt be required on this important line.

The *Forester* will make the trip across the Lake in about six hours, and will leave here daily at 8 o'clock. She is a neat and compact boat, about the size of those now running between this city and Chicago, and is provided with excellent accommodations for passengers. Her cabin is the largest, and most handsomely furnished of any boat on Lake Michigan. For any of our citizens, who may desire to make a pleasant trip across the Lake at any time, this route will prove an agreeable one. The *Forester* leaves this morning on her first trip.

POLICE COURT YESTERDAY.—James McDonald, intoxicated, was fined $1 and costs.

Stephen Thornbury, and James Ryan, were fined $5 and costs for being disorderly.

The case of the Third Ward rioters, was postponed, as the officer who got beaten, is still unable to appear in Court, from the effects of his injuries.

STEAMERS FOR OUR FERRY.—The Detroit *Tribune* of Monday last contains the following item:

NEW STEAMERS.—E. B. Ward, Esq., is building at Newport two steamers for the Detroit and Milwaukee Railway line, to ply between Grand Haven and Milwaukee. One of them will be completed by September 1st. They will be about 200 feet in length, with a depth of hold of about 11½ feet, special reference being had to the qualities of good sea boats. The Forester will run in the above line until one of these boats is ready for service, when she will return to the river trade.

SAIL VESSEL FROM GREEN BAY TO EUROPE.—By a private letter from the interior, we learn that Captain DAVID EVANS, of Berlin, Marquette Co., has gone to Green Bay, to procure a vessel, with the intention of sailing to Europe with a cargo of Wisconsin produce. We wish the Captain success.

SUNSHINE AGAIN.—The clouds, which have lowered about our city for three or four days past, dispersed yesterday afternoon, and the sun came out, warm and bright. We hope for a continuance of the sunshine.

IN TOWN.—PHIP HOMAN, the popular and efficient Agent of the Great Western R. R. Co., was in town yesterday, on a brief business visit. His head-quarters are now at Chicago; so near to Milwaukee that we hope he will give us a call often.

MEETING OF THE MILWAUKEE BAR.—An adjourned meeting of the gentlemen of the Bar, was held at the Court House last evening, and was tolerably well attended, although many persons were kept away by the pouring rain.

The fee bill, which, at the last meeting, was considered, amended, and ordered to be printed, was again taken up, discussed and amended.—On motion, it was unanimously adopted, as amended.

Mr. Savage offered a resolution, which was adopted, that the members of the Association of the Bar, will adhere strictly to the fee bill, as adopted.

The committee to procure the passage of an act for the incorporation of a library association, reported their success by presenting a copy of a bill, certified by the Secretary of State, to be a true copy of "An act to authorize the incorporation of Law Schools and Law Library Association." It is an act general in its terms, and applying to all associations desiring to organize for similar purposes.

On motion, it was referred to a committee, constituted by the Chair, as follows:

Messrs. Arnold, Hubbell, Lynde, Palmer, Van Dyke, Cross, and Gridley.

Mr. Dennis, in behalf of the committee appointed to consider the practicability of a bar supper, made a partial report, as to the terms on which a suitable entertainment could be obtained.

The committee were instructed to canvass the gentlemen of the bar, for the names of those inclined to participate in such an entertainment, and make proper arrangements therefor.

The Constitution of the Bar Association, as previously adopted, was read by the Secretary of the meeting, and was slightly amended by the requisite vote.

The meeting then adjourned to met at the call of the President.

FOR GRAND HAVEN.—The Steamer *Forester*, Capt. ROBERTSON, will leave KELLOGG & STRONG'S dock in the river, *this* (Thursday) morning, at 8 o'clock, for Grand Haven; connecting at that port with river steamers for Grand Rapids, 40 miles above, to which point, (or within a mile or two of it,) the cars of the Detroit and Milwaukee R. R. now run. The *Forester* will leave here daily, at 8 o'clock in the morning; returning at night. This is the opening of a new route to the East, which must soon become the favorite thoroughfare for the great bulk of the travel between the Atlantic sea coast and the North-West. The *Forester*, which is a fine and fast boat, is the pioneer of the Steam Ferry line.

NUISANCE LOTS.—The following lots in the 2d and 5th Wards were declared a public nuisance at the last meeting of the Board of Councillors, and the owners, occupants or agents were directed to drain the same, or to fill with earth sufficient to abate the nuisance, within ten days, otherwise the same is to be done by the Street Commissioners, chargeable to said lots, viz: Lots 7, 8, 9, 10, 8 and 4 in block 34, and lot 5 in block 103, in the 5th Ward, and in the 3d Ward lot 2, block 87; east half of lot 18, lot 19 in block 35, lots 4, 6, 7 and 10 in block 40, lots 3 and 4 in block 35, lots 2, 3, 8 and 9 in block 41, part of lot 11, north half of lot 10 in block 16, lots 8 and 9, block 45, lot 1 in block 26. It was also resolved to declare lots 6 and 7, block 196, in the 1st Ward, a public nuisance, by reason of stagnant water remaining thereon, and the owners or occupants of these are ordered to abate the nuisance within thirty days, otherwise the same will be done by the Street Commissioners according tolaw.

NEW BOOT AND SHOE STORE.—We notice that Messrs. N. L. GRISWOLD & Co., have recently opened a new Boot and Shoe store on Mason St. opposite the Walker House, which they appear to have stocked with a very extensive assortment of Boots and Shoes. Their stock embraces every variety, and they offer to sell at very reasonable prices, as will be seen by their advertisement. Messr. G. & Co., have a very choice assortment of ladies' booties, and fine boots for gents, to which particular attention is invited. It will be well for those in want of anything in their line to give them a call.

DEATH OF A FIREMAN.—Last evening we learned, with regret, that MARTIN SCHMITZ, a faithful member of our Fire Department, died in the afternoon, after an illness of two weeks. Mr. SCHMITZ belonged to Engine Co. No. 6, and was highly respected by his fellow members. The funeral of the deceased, we are informed, will take place to-morrow at 1 o'clock, from the corner of Detroit and Cass streets. Members of the Department are invited to attend.

GIFT SALE OF BOOKS.—Messrs. J. A. COLBY & Co. at 198 East Water street, are offering wonderful inducements to those in want of books of almost any description. They advertise a large variety of valuable works which they are selling at usual prices, and every one who buys a book of them is entitled to one of a large number of gifts, varying in value from $1,25 to $50. See their list.

PERSONAL.—Among the arrivals at the Newhall House, yesterday, was BISHOP UPFOLD, of Indiana, on his way to Nashotah, of which institution he is one of the Trustees.

EARLY CAULIFLOWER.—We are indebted to Mr. H. SPAAN, of the Market House, Seventh Ward, for some early Cauliflower, raised by F. MOSCOWITZ. Mr. SPAAN takes pains to supply his customers with the earliest and freshest vegetables of the season.

FOR BUFFALO.—The Propeller *Dacotah* will leave for Buffalo on Saturday morning. For passage apply to Griffin & Burns, at the foot of East Water Street. The *Dacotah* is a staunch boat and is amply provided with passenger accommodations.

D. & M. RAILWAY.—On and after to morrow, passengers by the 7½ A. M. train on this road will go right on to Milwaukee; and on and after Wednesday a steamer will leave Milwaukee daily, at 8 A. M., with passengers for the road.—*Detroit Tribune*, May 24.

LATE PAPERS.—We are indebted to McSORLEY & SIGERSON, of the News Depot, for late New York papers in advance of the mail. They have all the popular Dailies and Weeklies on hand.

MILWAUKEE CITY DIRECTORY.—The canvass of the city is nearly completed and the book will go to press in a few days, and be ready for the subscribers early in June. We desire all those in want of one, to send in their names, in order to secure a copy, as no more copies will be published than those subscribed for. Do not forget the number, 134 East Water Street.

J. S. FILLMORE has a good two story frame house and lease, on Second Street 4th Ward, for sale very low. Also a few good lots on Wells and 8th Streets 4th Ward, to lease. Also a brick store, with apartments above, on Reed Street 5th Ward, to rent very low.

FREE LUNCH.—Clam Soup will be served at the "Golden Gate," this morning, at 10 o'clock.

☞ S. G. CROUCH has Furniture Wagons, for moving household goods from the depots and dwellings to any part of the city. Those having jobs of this kind, will do well to employ him; if they want their furniture carefully handled.—Orders left at Crouch's Undertaking Rooms, Spring St., opposite the American, will receive prompt attention. my26d2t.

COMMERCIAL.

Milwaukee Market.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, May 27, 1858.

Received by M. & M. R. R., May 26th:—6,510 bus wheat, 1,107 bbls flour, 70 bus rye, 856 bus oats, 85 bus barley, 391 bus potatoes, 92 bus beans, 4 bbls eggs, 6,407 lbs hides, 450 lbs pork, 680 lbs butter, 4,789 lbs wool, 2,910 lbs sundries.

By Mil. & Wat. R. R.—3,105 bus wheat, 1,318 bus oats, 185 bbls flour, 12 sacks flour, 9 bbls pork, 6 bbls eggs, 1 bbl tallow, 1 tub butter, 1 keg butter, 14 bundles cowhides, 33 pelts.

By Mil. & Hor. R. R.—1,468 bus wheat, 953 bus oats, 28 bbls flour, 60 sacks flour, 8,952 lbs hides, 486 lbs sundries.

There was a little more activity in the market yesterday, but receipts were much lighter, and, consequently, platform sales were limited. A decidedly better feeling was manifested on the part of the buyers, and good samples of wheat met with ready sale at full previous prices, and in some cases an advance of 1 cent was paid for choice club. The weather was warmer, with fair indications of a clearing up, but the roads are, and will be for some time to come, in a bad condition for travel. We quote:

WHEAT—In active request at 63@66 for club, and 62@63c for No. 1. Some choice lots were taken by millers at 66c, but the majority of sales were at 65c, with however, a firm feeling amongst holders. Warehouse sales, yesterday, of 3,100 bus extra club, f. o. b., at 65c, and 2,300 do. at 66c. Winter wheat steady and unchanged.

FLOUR—Not much doing in flour. Small sales of spring extra at $3,85@3,90 for choice brands to retail trade. W. W. extra wanted at $3,75@3,80, according to quality.

BARLEY—Rather steady and unchanged. The Sch. A. Scott takes wheat to Oswego at 74c.

OATS—Are coming in freely, and the market remains dull. Shippers offering but 28c.

RYE—In good request at 60@65c.

BARLEY—Still remains dull at 80@85c. Brewers are, generally, well supplied.

CORN—First at 38@40c for good dry lot shelled, and 33@37 in the car.

POTATOES—Plenty at 30c.

BUTTER—Is still down. The market is glutted, and there is no sale for inferior qualities. Best fresh roll at 13@14c.

HIDES—In good request at 5@6 for green and 10@12 for dry.

NEW YORK MARKET.

New York, May 26.

FLOUR—Less active, and the market heavy for all kinds except superfine, which is scarce—sales 10,400 bbls at 3 85@3 95 for superfine state, 4@4 45 for extra do, 3 85@4 30 for rosseting Western, 4@4 45 for common to medium extra State, 4@4 10 for Ohio, and 4@4 47½ for shipping brands extra round hoop Ohio; the market closing heavy. Canadian flour unchanged, sales 800 bbls at 4 25@5 40 for common to choice extra. Rye flour dull sales 350 bbls at $3 75.

WHEAT—Receipts nearly 200,000 bush, and the market heavy and lower, shippers not so anxious to purchase; sales 45,000 bush at 82@88 for Chicago spring; 84@85 for Mil. club, 91@1 01 for white Canadian, 95 for Red winter Western, and 1 01 for white Ind.

RYE—Dull at 65@68c.

BARLEY—Dull and nominally the same.

CORN—Scarce and steady, sales 47,000 bush at 72@75 for mixed western, 72@74 for white, and 77@78 for yellow Southern.

OATS—Plenty and dull at 35@40 for state and western.

Congressional Proceedings.

WASHINGTON, May 25.

SENATE.—The Loan bill was discussed, during which Messrs. Toombs and Crittenden spoke unequivocally on the subject of the British aggressions in the Gulf. Mr. Toombs asserting that the Government should have sunk the British ships, or, seizing them, brought their officers here and hung them.

Mr. Crittenden, while believing that England would make ample apology, thought that English cannon should not be permitted to stop our ships. He would not dispute with England about the abstract right of search. Let her found her claim on what right she may, the moment she makes an aggression upon our national right and honor, "I will," said Mr. Crittenden, "fight her upon the fact, with war for an argument."

After some important business, the Senate passed the bill for the improvement of the harbor of Chicago, by 26 against 17. The vote being a test as to internal improvements, numerous other estimates for the maintenance from decay of public works, will follow.

The nays were Messrs. Brown, Clay, Clingman, Davis, Fitch, Hammond, Houston, Johnson, of Tenn., Mallory, Mason, Polk, Read, Slidell, Toombs, Wright.

Absentees—Messrs. Bates, Bayard, Bell, Cameron, Clark, Green, Gwinn, Hale, Hayne, Henderson, Johnson, of Ark., Pearce, Rice, Sumner, Thompson, of Ky.

Paired—Messrs. Pugh and Yulee, and Messrs. Dixon and Fitzpatrick.

The bill for the improvement of the mouth of the Milwaukee River was passed. The bill for the improvement of Sheboygan Harbor was taken up, but laid aside for the consideration of the the fifteen million loan bill.

Mr. Bell, of Tennessee, had the floor and spoke nearly all day on tariff questions.

Mr. Simmons' amendment, providing for a home valuation of imports, was passed by 25 against 17.

On motion of Mr. Hunter, of Virginia, the warrants were made thousands of dollars instead of hundreds.

The bill was finally passed, 26 against 14 as follows:

AYES—Messrs. Allen, Bigler, Bright, Brown, Clay, Clingman, Davis, Douglas, Fitch, Fitzpatrick, Hammond, Hayne, Houston, Hunter, Iverson, Johnson, of Ark., Jones, Mallory, Mason, Pearce, Reid, Rice, Sebastian, Shields, Thompson, of Ky., Thompson, N. J., Wright, Yulee.

NAYS—Bell, Broderick, Chandler, Crittenden, Fessenden, Foster, Hamlin, Harlan, Johnson, of Tenn., King, Pugh, Seward, Wade, Wilson—Paired—Mr. Polk, with Mr. Trumbull, Mr. Stewart, with Mr. Collamer, Mr. Slidell, with Mr. Durkee, Mr. Benjamin, with Mr. Doolittle.—The other members were absent.

Mr. Hunter gave notice that he will to-morrow bring on the miscellaneous appropriation bill. Adjourned.

HOUSE.—In the House the Fortification bill was discussed, and the chances for a war with England, generally considered. There was no definite action.

The House is voting to concur in the recommendations of the Committee of the Whole on the state of the Union, concerning the Senate amendments to the executive and legislative bill.

The House by 13 majority struck out the Enacting clause of the fortification bill, thus killing it.

Mr. Hughes, of Indiana, from the Select Committee appointed to examine the accounts of Messrs. Darling and Hackney, late doorkeepers of the House, reported the testimony in the case, but made no recommendation, the accused parties having passed beyond the jurisdiction of the House. He, however reported a resolution, providing for certain reforms in the folding room, and in the distribution of documents.

Mr. J. Glancy Jones, from the committee on ways and means, reported a bill making appropriations to defray the expenses of collecting the revenue from customs, and also a bill authorizing a loan of fifteen million dollars.

The report of the select committee on the Fort Snelling case was announced as the special order.

Mr. Davis, of Indiana, moved its postponement till the 2d Tuesday in December next.—They were near the close of the session, he said, and this subject would occupy two days' time, at least. There was much business yet to be transacted, and he thought the consideration of this subject could be postponed without injustice to the Secretary of War.

Mr. Faulker, of Va., said that justice to the Secretary of War required that it should be acted on now for one he was unwilling to consent to further delays and was ready to meet the question.

Mr. Phelps, of Mo., remarked that a postponement would be unjust. The secretary had been arraigned on grave charges and should be now tried on the allegations. It was the duty of the House to investigate the matter and make up their judgment, either by acquitting or condemning the accused. He was anxious to leave the city at the period fixed for the adjournment, but was willing to extend the time if necessary, in order to transact the public business.

The motion of Mr. Davis was rejected, 107 against 96.

The subject was then postponed until Tuesday. The House then went into Committee, Mr. Sickles chairman, on the naval appropriation bill.

The discussion on this bill was continued at some length, and after being amended, was laid aside to be reported to the House.

The House took up the bill making appropriations for the support of the volunteer regiments. After some discussion the bill was laid aside for the present.

Mr. Bowie, of Maryland, having frequently interrupted the proceedings by disorderly conduct, the Committee in consequence rose, and, by adecision of the Chairman, reported to the House for its action. Mr. Stanton moved that Mr. Bowie be taken into the custody of the Sergeant-at-Arms, to answer for contempt, but subsequently withdrew the motion. Mr. Bowie having retired from the

Madison Misrepresentations.

We have had occasion, recently, to pass some severe censures upon articles in the Madison *Argus* and the Madison *Patriot*, assailing with great bitterness and all manner of vituperative epithets, the members of the late Legislature.—The motive of those attacks, however, was so transparent, that they obtained neither credit, nor currency with the People. We regret to say that the Madison *Journal* seems to be following in the footsteps of its cotemporaries at the Capitol, and, especially where Milwaukee is concerned, quite equals the *Argus* and *Patriot* in misrepresentation and abuse. A recent article in the *Journal*, on the subject of the Capitol removal, was disfigured by gross mis-statements about Milwaukee, and insulting personal reflections upon a number of gentlemen in this city; some of whom, certainly, had a right to expect very different treatment at its hands. A later issue of the *Journal* contains the following:

☞ Milwaukeeans are glad to hear of the extension of the Watertown R. R., the Madison *Journal* to the contrary notwithstanding.—*Mil. Wisconsin.*

A paragraph of similar import appears in the *Sentinel*; both acknowledging that Milwaukee is hostile to the building of the southern division of the Land Grant Road connecting Madison and Portage City. This latter enterprise is second in importance to none in the State, in proportion to its extent. No other is more necessary to the early and rapid development of the Central and Northern portions of the State, or for the accommodation of its people. Yet, in the spirit of the lutensest local narrowness and selfishness, Milwaukee does everything within her power to check and retard its progress.

So far as the *Sentinel* is concerned, the above is a wanton and inexcusable fabrication. No paragraph of the "import" referred to; no acknowledgement that "Milwaukee is hostile" to the building of the Madison and Portage R. R., has appeared in our paper. The paragraph to which the *Journal* refers, was a very brief one, in answer to a previous misrepresentation of that paper, charging that Milwaukee was hostile both to the Columbus and Portage, and to the Madison and Portage R. R. This was copied by the Columbus *Journal*, and the opinion confidently expressed, that Milwaukee was *not* hostile to the Columbus and Portage R. R. We simply endorsed what the Columbus paper said.

The charge of "intensest local narrowness and selfishness" against Milwaukee, comes with peculiar grace from a quarter which is notorious, the State over for precisely these qualities, and where, during the recent session, "selfishness" reigned supreme. We should be justified in using even stronger language towards these squatters upon the State Treasury, but, for the present, forbear. Meantime we advise our Madison cotemporaries, in all seriousness, to mend their manners and improve their speech towards those portions and people of the State *outside* the Capital, and gradually, if they can, to wean themselves from the delusion that Madison is Wisconsin.

The Case of Senator Chappell.

The *News* complains of "partisan unfairness" in the *Sentinel*, in our remarks upon the Chappell case. The complaint is just as well founded as its charge that the votes cast against Mr. CHAPPELL in the Senate were "based on partisan considerations." The votes themselves are the best possible proof in support of this charge. Why does not the *News* publish them? Simply because it knows that they would emphatically contradict its assertion.

As we have already stated, on the two main charges against Mr. CHAPPELL, TWENTY-ONE Senators voted that he was *guilty*, while only *five* thought him innocent. Among the 21 were several of the leading Democrats in the Senate, while the minority were *all* Democrats. It, therefore, there was any vote "based on partisan considerations," it was not that of the 21 Senators of both parties who pronounced Mr. CHAPPELL guilty, but that of the small minority of 5 democrats who pronounced him innocent.

The *News*, not satisfied with the facts, puts a hypothesis, thus:

> Suppose that the case was reversed; the majority of the Senate, we will suppose, are Democrats and by a vote based on partisan considerations,—as the votes thrown against Mr. Chappell unquestionably were based,—a Republican is formally censured, and even declared unworthy to sit in that august body, but at that point the proceedings stop—if these were the facts and circumstances, would any Republican think such Senator ont to voluntarily resign his seat? Would the *Sentinel* advise such a course? We fancy not.

You "fancy" wrong. The *Sentinel* would not only "advise", but insist, that any Republican Senator, accused and convicted of such acts as were proved against Mr. CHAPPELL, should instantly resign his seat and be disqualified from ever after holding an office of trust or honor in the State. Such was the universal sentiment of the Republican press in the case of Mr. WIXON, and such ought to be the sentiment of the Democratic papers in regard to Mr. CHAPPELL. No "partizan considerations" should induce them to extenuate the offence, or screen the offender.

UNITED STATES DISTRICT ATTORNEY.—Hon. D. A. J. Upham, of this city, has been confirmed by the Senate as United States District Attorney for the District of Wisconsin. He received his commission yesterday, it having been signed by the President of the 10th inst. Mr. Upham's friends are highly gratified; and the duties of this important office will be ably and faithfully attended to.—*News* of yesterday.

Here is one gentleman off the "anxious seat;" but several remain there, among them Collector SCHOEPFLER and Postmaster SHARPSTEIN. There is, however, no reasonable doubt that the former will be confirmed. As to the Postmaster's case, it is said to be considerably "mixed."

EDITORIAL CONVENTION—POSTPONEMENT TO JULY FOURTH.—It has been suggested by a number of our citizens, who have interested themselves in the subject, that the Editorial Convention announced to be held here June 16th, be postponed to July 4th. The proposition strikes us as a very favorable one, as on that day we will be able to extend our hospitality to our editorial friends; the military ball will come off that evening, our strawberries—which the wet weather has kept backward—will be ripe, and generally, we will be prepared to do the occasion full justice, which we may not be at an early day.—*Madison Argus.*

We hope that the motion to postpone, will not prevail. Most of us like to celebrate "Fourth of July" at home. The day first named is more suitable for the Editorial Convention.

REMOVAL OF THE CAPITOL.—The Appleton *Crescent*, speaking of the discussion in the late Legislature on the Capitol removal bill, says:

> We think favorably of the temporary location at Milwaukee, (provided the same is accomplished without expense to the State,) and we question whether there is a dissenting voice in this part of the State as to the propriety of removing the Capitol to Portage City, or some other point easy of access and nearer the geographical centre of what will be the State of Wisconsin. In a word, we are for removal.

PRETTY GOOD.—The Republican Mayor was recently elected in Providence, Rhode Island, by 1,022 majority. Last year his majority was 1,022. The *Post* (Democrat) consoles itself with the reflection that if a corresponding gain takes place annually, Providence will be redeemed in one thousand and twenty two years.

WAUKESHA, May 24, 1858.

Waukesha, Geneseo, North Prairie, Eagle, &c.—The country around the village of Waukesha is not surpassed, for scenery, by any town in the State. Those who desire to see Waukesha to advantage, should walk to the top of some one of the high points of land, around the village, or "built part" of the town. There is a range of bluffs, but a short distance from the Rail Road track, along the sides of which stand many very handsome dwellings; from the top of any part of this high land a beautiful view presents itself. The stone buildings look exceedingly neat and tasty, their sides being of a *pure* cream color, and having a durable appearance that is not often seen. The spires of the numerous churches, eight in number, I believe, Carroll College, the handsome stone depot of the rail road, countless fine dwelling houses, with gardens well laid out, and ornamented with shrubbery, door yards, stone stores, a handsome Court House, and substantial Jail. The village, as it appears from either height around it, is one of the prettiest of scenes. The Waukesha *Republican*, of Oct. 13th, 1857, published a very correct view of Waukesha, and gave some accurate statistics of the village. I clip the following from it:

> "Oak covered bluffs and knolls, and rolling prairie, on the edge of a strip of heavy timbered land, with the Fox river rolling through the scene, must have made the sight pleasant even to the pioneer, and now that the land has been changed and a fine village of comfortable houses, and handsome streets, built up, its surroundings prove to be just what a person of taste would ask for.
>
> Our public buildings are, nearly all of them, of substantial stone, and we may refer to the Episcopal Church, Union School-house and College as instances of architectural beauty.
>
> Our residences are, many of them, large buildings of stone and wood, with commodious surroundings, and elegantly finished, while those of less pretensions, with their maple yards, * * * show the stranger little scenes of home comfort that are the best endorsements of the prosperity of the place."

There are several stone buildings being erected, and I understand there is a good demand for more stores. I notice that several Milwaukeeans have purchased residences, finding it much cheaper to live at Waukesha, in a good comfortable dwelling house, with room around it for a flower and kitchen garden, pay the fare twice a day to and from Milwaukee, than to live in the latter place. I enquired the prices of rents, and found that the difference between a good commodious house in Waukesha and Milwaukee was about $400; take off $125 for fare on the Rail Road for one year, and again allow for the difference of the cost of fuel and provisions in Waukesha to Milwaukee, and the amount saved by a residence in Waukesha *will nearly pay for housekeeping a year*, that is for fuel and provisions. Those who examine this matter for themselves, will find that I have written the truth, plainly nothing more.

There are two well-kept hotels in Waukesha—the Exchange and American. In the stone building, finished last winter, the old landlord of the Light Guard Saloon, in Milwaukee, (JOHNHAM,) has opened a Billiard Room and the Forest City Saloon, which is elegantly fitted up and well kept; as John was burned out not long since in Milwaukee, and lost heavily, his friends, when they stop at Waukesha, should not forget the "Forest City." I visited the jail and saw Eli Meyer, who stands indicted for the murder of a woman and her two children at Genesee. The evidence against him is of such a slight character that I found none who believed he could be convicted. They have also a boy on a charge of placing obstructions on the railroad near Genesee, a few days since—he confesses his guilt and states also that he put obstructions on the track near Palmyra, last fall. It has been suggested to me that he should be advised to withdraw his plea of guilty, obtain a change of venue to Dane County, demand a jury of his peers, (who would either acquit or disagree, and to the end the *nol. pros.* of the District Attorney would set him free, to practice what he, the boy in jail, says was "only for fun," in the vicinity of Stoughton, where it is "no particular harm to do them things."

Genesee is passed at such a distance from the village that I can write nothing at present; I shall pay it a visit in a few days, and shall then have an opportunity of saying something about it. From Genesee to the next stopping place is but a short distance; the land is well cultivated and valued at high prices. In a few minutes we have reached North Prairie; a pretty piece of country surrounding the stopping place of the train, where is a thrifty village with two stores, one kept by SARGEANT and the other by BOGARDUS, the first a wide awake, well informed Vermonter, the latter says he is of "Dutch distraction."—There are about 30 dwelling houses now, and several more to be built this summer, the meanest looking depot or passenger building in the State, a station master, or agent, the very reverse of the building, for he gives general satisfaction and is a faithful agent to the rail road.—The "Good Templars" are at work at this village; they have done some good, and I hope they will do much more; there is need of all their efforts. I have been accustomed "to find things *tight*" in almost every village and place I have visited lately, but this is the only one where I found the times and so many of the men in sight in the same predicament. I am not a Maine Law man but I do say success to the 'Good Templars" at North Prairie.

For a few miles, after leaving North Prairie, through and along a flat of handsome openings, under the very best state of cultivation, dotted frequently on choice knolls or other pretty spots, with the farm and out-houses and orchards of the farmers, most of whom have, since last harvest, and do now, hold their wheat, in expectation, or rather in hopes, of higher prices. A few minutes and Eagle is reached. This is one of the prettiest little villages along the line of the road, supported on every side with a first rate farming country. There are, I think, six stores here; in all of them they told me they had done a good business. There is a good warehouse here, kept and owned by Modbury & Verkins, who are doing a good business in the buying of wheat, &c.; both are Milwaukee men; the best looking residence in the village is owned by the latter gentleman who lives at Eagle. There is the best kept hotel, *or* rather refreshment room, in Hill's Hotel, here, that can be found between Milwaukee and Madison; the food is of the best kind, always ready, with a moderate charge; the cars stop long enough for refreshment, and as Hill is well known, and his good style of getting up things also, he is well patronized.

At North Prairie and Eagle the *Sentinel* is well patronized. J. W. H.

☞ A VALUABLE COMMITTEE.—Mr. Clay, from the Committee on Commerce, reported against a large number of public improvements.

The principle function of this Senate Committee on Commerce, appears to be to obstruct Commerce by every means in its power. It opposes the bounties to the Fishing Trade. It opposes Navigation on the Lakes and Rivers. It opposes necessary improvement of Harbors. It suggests no protection against outrages on American vessels. But what more could be expected from *such* a Committee? Its Chairman is from Alabama, a State that never builds a Ship! Three Southern Planters and a New Orleans Lawyer compose the majority who control its deliberations! Neither of the great Commercial Centres—New York, Boston and Baltimore—have a representative in it. Not one of the States bordering on the Great Lakes have any voice in it. How much does a Committee, thus constituted, know or care about Commerce?—*Albany Eve. Journal.*

☞ For washing fine and elegant colors, the *Scientific American* advises ladies to boil some bran in rain water, and use the liquor cold.—Nothing can equal it for ease upon colors and for cleaning cloth.

☞ Gold has been discovered in Gentry county, Mo., and several old Californians are at work there, taking out from $1 to $6 per day. It is believed that there are heavy deposits in the neighborhood.

CHAPTER XCVII.

AN ACT to amend chapter four hundred and seventy-nine of the General Laws of Wisconsin, for the year 1852, entitled "An Act to authorize the business of banking in the State of Wisconsin."

This provides numerous amendments to the General Banking Law. Leaving out the minor amendments, changing words merely, or phrases the changes proposed may be stated as follows:

The Bank Comptroller's salary to be $2,000, *exclusive* of Clerk hire, &c.

The sections allowing *railroad* securities to be taken, are repealed.

The bondsmen mentioned in section 17, must be residents of this State.

Hereafter, Banks not to be *located* in any place having less than 200 voters, nor to take out circulation greater than their capital stock.

Names of banks to be such as can easily distinguished from each other.

No bank of circulation to be allowed to carry on business, unless it has deposited at least $25,000 of securities, exclusive of directors' and stockholders' bonds.

Ten days notice is to be given by the Comptroller to banks to pay notes, after protest, and banks must pay fees and costs of proceedings. Notices of sale of securities must be made in the State paper. The Comptroller is allowed to sell securities otherwise than by auction in New York, by the consent of the depositors.

Provision is made for a reduction of capital stock, and reduction of tax.

Bills to be signed by the President or Vice President, and Cashier or Assistant Cashier, and no one else.

Notes to be payable till 3 years from the notice of stoppage of the Bank.

Ten per cent interest allowed, the limitation to January, 1860, being repealed.

The act to be submitted to the people, at the fall election, and to go into effect if a majority of the votes cast on the subject shall be in favor.

Published May 22nd, 1858.

CHAPTER CXXXIV.

AN ACT concerning testimony.

Persons interested in civil suits not to be excluded as witnesses, but their interest may be shewn in evidence. Cases where the opposite party sues a representative of a deceased person are excepted, as well as where the opposite party claims as assignee where the original assigner is dead, and where the matter in controversy has been conducted by an agent of the opposite party. Notice to the opposite party of intention to examine the interested party as a witness shall be given.

Depositions of parties in interest, living out of the State, or more than thirty miles from the place of trial, shall be taken as evidence, as in other cases of depositions.

(Published May 22d, 1858.)

CHAPTER C.

AN ACT to authorize the Judge of the Eighth Judicial Circuit Court to hold special terms.

The Judge to hold at least four special terms in the year, for the usual business of such terms—to designate them by publication in a newspaper, and not to change them for two years.

Published May 24, 1858.

CHAPTER CIV.

AN ACT to provide for the instruction of the Deaf and Dumb and Blind within this State.

Provides for the education, at the expense of the State of deaf and dumb, and blind persons, between 10 and 25 years of age—limits the time of instruction to six years, commencing with the time when they were received into the institution. Application to be made by parents or guardians to the supervisors, Aldermen of the Ward, or Trustees of Village, to certify as to inability to pay board, this certificate to entitle to admission to the State institution. If able to pay a part of the expense, the amount to be certified—the cargo to be $75,00 per annum quarterly in advance, where there is ability to pay.

Published May 24th, 1858.

CHAPTER CVI.

AN ACT in relation to all companies transacting the business of Life, Fire and Marine Insurance within this State.

Every insurance company doing business in the State, shall within three months of the passage of this act, and annually on or before the last of February thereafter, furnish the Governor, and publish daily for two weeks in the State paper, a statement on oath, by their president or principal officer, and a majority of their directors or trustees, shewing the amount of their paid up capital and accumulations of which they are possessed, and specifying the particular securities in which they are invested, with the amount of each; the number of policies and the amount of outstanding risks thereon, the several amounts received in premiums and from other sources for the current year; the amount of losses and the expenses severally for the same period; the amount of claims unpaid; the amount offered for re insurance; the amount of premium notes, if any, held on account of policies upon which the risk has terminated; the whole number of policies issued or continued, through their offices or agencies; the amount of risk thereon, and the gross amount of premiums received therefor, in the year preceding their report; the number and amount of losses paid through their agencies and by their officers during the same period.

Whenever the Governor may deem it expedient he may appoint competent persons, not officers of any company, to examine into the affairs of any insurance company—the books to be open for the purpose, and oaths to be administered—the result to be published if deemed expedient.

If the assets are deemed insufficient, the Attorney General to apply to the Circuit Court for an order to show cause why the business of the company should not be closed.

No person shall act as agent of a foreign insurance company (that is not incorporated in the State) without first procuring a certificate from the Governor, of compliance with this law; $3 to be paid for such certificate.

If the Governor is satisfied that a company is in an unsound condition, he shall revoke the certificate, and give notice thereof for 4 weeks in the State paper—the agents of such company to cease issuing policies.

Violations of the law to be punished by a fine of $500 00, with imprisonment for 6 months for non-payment.

THE FISHING BOUNTIES.—"The bill for the repeal of the Fishing Bounties has passed the Senate, all the Administration Democrats except Mr. ALLEN, of R.," voting for the Repeal, and the Opposition Senators voting against it."

Stimulated by these bounties, our Fishermen had nearly distanced all competitors in the business. The Bays of New Brunswick, Nova Scotia, Newfoundland and the Lower St. Lawrence are dotted all over with trim little schooners, clipper built, hailing from Marblehead or Gloucester. Half a dozen sturdy Yankees are the Crew, and half a hundred Barrels of Fish cover the Decks of each. Her Majesty's subjects in that part of the world regard these interlopers with a sort of envious admiration.—Their highest praise of a vessel's model is that she is "Yankee built." At fishing, as in sailing, they declare the Yankees "have all the luck."—They aver that God will bite at a Yankee Hook, and Mackerel will swim into a Yankee Net, when nothing else will tempt them. They honestly believe that there are certain secret "tricks" and cunning "machines," by which the Yankees coax the Fish to come up and be caught!

It will be good news for the British Fishermen that Mr. Clay and other Southern Senators have succeeded in passing a Bill to raise the price of Codfish, thereby decreasing the demand for them and discouraging the Yankees from going after them. The Provinces can now recover their lost Monopoly of the Fisheries.—This Act is but one of many specimens of that intense Sectionalism which will even legislate for the benefit of Foreigners, if by so doing, a blow can be struck at Northern Industry and Enterprise.—*Albany Eve. Journal.*

MORE SWINDLES STOPPED.—By a recent decision of the Postmaster-General, all letters addressed to persons or firms known to be fictitious are to be at once forwarded to the Dead-Letter Office, instead of being delivered to any person professing to represent the fictitious concern. All communications addressed to C. E. Todd & Co., Huntington & Co., Dr. H. James, the "Retired Physician," Monnett & Co., Dr. Wallace, Dr. Le Brun, Dr. De Lormo, and a number of other bogus lottery, quack medicine, and obscene publication swindlers, will hereafter be sent at once to Washington, and the money they may contain returned to the senders.

CHAPTER CIII.

AN ACT to provide for the instruction of the Deaf and Dumb and Blind within this State.

The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. From and after the passage of this act, every indigent, deaf and dumb or blind person, between ten and twenty-five years of age, whose parents or nearest friends may be residents of this State, and who shall make application for that purpose, and shall be received into such of the charitable institutions of this State as the necessity of the case may require, in the manner hereinafter mentioned, and be provided with board and tuition at the expense of the State.

Sec. 2. The deaf and dumb or blind now in said institutions shall be subject to the provisions of this act, and the terms of instruction shall not exceed six years for those who are supported at the expense of the State, and the terms of the present pupils shall be considered as having commenced at the time they were received into either of said institutions, to be supported at the expense of the State.

Sec. 3. Whenever the parent or guardian of a deaf and dumb or blind person, is desirous to have him or her instructed, application shall be made to the board of supervisors of the town, or to the alderman of the ward, or the trustees of the village in which said deaf and dumb or blind person shall reside, who shall certify to the inability of the parent, parents, or guardians, to pay for his or her board which certificate being produced, shall authorize the board of trustees of either of the institutions aforesaid, to receive such deaf and dumb or blind person as a pupil; and in case the parent or guardian have the ability to pay any portion of the board of a deaf and dumb or blind pupil, then the board of supervisors of the town, or alderman of the ward, or trustees of the village, shall certify and state the amount, and the balance only shall be defrayed by the State.

Sec. 4. In all cases where the parent or parents, or guardian of any deaf and dumb or blind person, shall be desirous to have such persons educated at either of the said institutions, and shall have the ability to pay for the same; the charge for such board shall be seventy-five dollars per annum, payable quarterly in advance, which said sums shall be paid to the superintendents of either of the institutions, as the case may be, and credited to the State.

Sec. 5. All acts and parts of acts which conflict with the provisions of this act, are hereby repealed.

Sec. 6. This act shall take effect and be in force from and after the first day of September, A. D. 1858.

Speaker of the Assembly.
E. D. CAMPBELL,
Lieut. Governor and President of the Senate.

DR. J. H. ROBINSON
AMONG THE TRAPPERS.
ANOTHER NEW ATTRACTION
IN
THE NEW YORK WEEKLY
Which is universally acknowledged to be
THE BEST STORY PAPER
NOW PUBLISHED IN ANY PART of the WORLD!

NICK WHIFFLES:
OR,
The Trapper Guide.
A TALE OF THE NORTH-WEST.
BY DOCTOR J. H. ROBINSON!

AUTHOR of "Buck Elson," "Pioneers of Kentucky," "Marion's Brigade," "Half-Witted Nat," etc. etc. His last and best story. For sale by all news dealers in the United States and British Provinces. This is a story, descriptive of Wild and Startling Adventure, and of the primitive modes of life, among the Indians and Trappers of the Great Northwestern Territory; this "grand and extensive portion of the American Continent has be ahitherto almost as a "sealed book" to the civilized world. In these regions a territory nearly as large as Europe has long been locked in the monopoly of the great fur companies, the Hudson's Bay Company and the Northwestern Co. Private enterprise has not penetrated its solitudes, and of those whose duties have collected them there, and who have participated in the treasures of this unknown land, none have hitherto been willing to expose its mysteries, or have possessed the power of portraying the perilous and strange vicissitudes through which they have passed. Every where and classes of men, distinct, indigenous to the soil, or moulded by its peculiarities, perfectly original in character, utterly unlike in manner and habits to any similar orders in other lands. The Indian, in all his natural wildness; the half-breed, a strange mixture of daring, simplicity and cunning; the Trapper, who spurns the restraints of civilization, and recognizes no law, but, the fierce impulses of his own will; the European exile or outlaw; the Outlaw of Canada or the United States, who seek in the trackless wilderness a refuge from the outraged laws of civilized life. * * * Nor is this rude society denied the genial influences and humanizing effects of woman's presence. Impelled by affection, hundreds of devoted women have accompanied their husbands to the wilderness, and there, while the population, the offsprings of mixed races, contains thousands of half-breed females, in whom the passions, the graces, and the virtues of the softer sex, are blended with the wilderness of the Indian, and the wild freedom of a life that knows no conventionalities.

In these reckless men, the great rival Companies find willing agents and unscrupulous tools; once engaged in their service, they are not returned, or refuse to return to society. Amongthese people are created deeds of rude chivalry, as brilliant and daring as any recorded of the chivalric ages, and there also are committed deeds of treachery, and crimes of wild passion, that can find no parallel in history, or scarcely imitation. Living absolutely without law, and without public opinion, every man is superior, and, generally himself, each individual and the female wh are the only exceptions.

Here is a glorious field for a novelist whose experience and talent fit him for the task. So completely has Doct. ROBINSON mastered the situations of "NICK WHIFFLES," and in this study we venture to say that he has surpassed every former effort. For fidelity to nature, for graphic and dramatic force of style, and for the creations of character, there are few writers in the language that can compare with "NICK WHIFFLES." The author brings before the reader, in life like action, the hardy Adventurer and the simple, Native of the Wilderness; the artful Trapper and the half-breed; the unfortunate, and the unprincipled; the virtues of life he depicts, alternately arouse our indignation and awaken our sympathy. At one time we are carried away with admiration of the daring and romantic, as he vividly paints by the skillful writer, at another time we are melted to tears by the exquisite pathos with which some of the noblest traits of human character are portrayed. At one moment we are convulsed with laughter by humorous descriptions of eccentric and original characters—the next see offspring of a free, lawless and untrammelled state of society. Added to all these is a mass of information, which, to the mass of the human world is hitherto unknown for want of a historian.

Those who have read the previous productions from the pen of Dr. ROBINSON, do not require to be told that he is no man living who can compete with him in a story of this character. He stands unrivalled in this class of literature. As one of the leading contributors for the *Flag of our Union*, and other leading publications of the day, for a number of years, he has acquired a popularity that places him in the front rank of American story-writers.

☞ Those who desire to secure the story by Dr. ROBINSON, complete, should give their orders in time, to enable us to make arrangements to supply them. Where ever there is a News Agent, order through him. We only desire to send the WEEKLY by mail to out of the way places, where no News Agent resides. Published weekly, the terms are $2a year, or two copies for $3 for six month subscriptions, $1. All orders by mail, must be addressed to

THE PLUNDER OF LUCKNOW.—The British troops and their native allies obtained a vast amount of plunder in Lucknow. The palaces were filled with evidence of barbaric magnificence, by the richest carpets, by sumptuous divans, by cushions covered with golden embroidery, by rich screens of Cashmere shawls, and by table covers ponderous with pearls and gold.
The *Times* correspondent says there was a profusion of mirrors in ponderous gilt frames, and glass chandeliers, but the hand of the spoiler was heavy among them all. Those hung out of the reach of the musket stock and bayonet were scarcely safe from a bullet or the leg of a table. Down came chandeliers in a tinkling, clattering rain of glass—crash! crash! door and window, and mirror and pendule! Sikh and soldier were revelling in destruction and delirious with plunder and mischief. Those who could not get in at once to carry on the work, searched the corridors, battered off the noses, legs and arms of the statues in the gardens, or, diving into cellars, either made their fortunes by the discovery of unsuspected treasures, or lost their lives at the hands of concealed fanatics. There was no time to guard against indiscriminate plunder.
Nothing but a photograph can give a notion of Lucknow as it is seen from the minaret or roof of this building—such a sea of roofs, amid green groves and gardens, surmounted by gilt domes and slender minarets, and all the strange combinations of lines and ornaments in which Oriental architects delight.
Working our way through sikhs busy in melting down gold and silver lace in huge fires under earthen pots which served as crucibles, through wounded Ghoorkas staggering back to the rear, we approached the Kaiserbagh.
Our men were in high delight with the gay dresses of the eunichs which they found in some of the rooms, and it was with difficulty they were induced to take off the crowns of lace and peacock's plumes, and bird of paradise feathers, and the swordbelts they stuck over their heads and shoulders.
In one of the rooms the men early made a great seizure of rich plunder. They had burst into some of the State apartments, and were engaged in dividing the spoils of shawls and lace; and embroidery of gold and silver and pearls.
The rooms off this nook had been used as stores by the King, or some wealthy member of his household, and each moment those men went in only to emerge with a richer trophy. In one box they found diamond bracelets, emeralds, rubies, pearls, and opals; all were so large and bright and badly set, that we believed at the time they were glass. In they came with bundles of swords, gold mounted and jewoled, which they at once knocked to pieces for the sake of the mountings, leaving the blades behind them! Next came out a huge chemical laboratory, then a gold saddlecloth, studded with pearls; then gold handled riding canes; then cups of agate and jade, gold-mounted and jewoled; then—but I must really stop this broker's inventory. The happy possessors of those riches were quite mad with excitement.

FRIENDS OF HUMANITY.—To you (always disposed to aid the suffering,) it may appear incredible, after in vain trying all the "wonderful" medicines of the day, that one application externally, and a few drops taken internally, of my (genuine) Electric Oil, will so very suddenly relieve the sufferer from the most violent pains; yet, it is a fact, as testified, by good men and by good women, whose names are at my office. Not any have used it without deriving some special benefit within an hour, and many are they who have been perfectly cured of Rheumatism, Neuralgia, Spinal and Bronchial Complaints, Croup, Tic Doloreux, Falons, Cramps, Piles, Sprains and Bruises, Cuts and Wounds, Swelled Glands and Stiff Joints, Scrofula and Mycoplasis, Sore Nipples and the sting of Insects, Salt Rheum and Cankers in the Mouth or Stomach, Chilblains and Kindred Sores, Headache and Toothache in five to ten minutes; also, Chilblains and Sore or Tender Feet. It will be seen that I do not profess to cure every thing, but only a certain class of complaints; all of which are curable on simple Electric principles through the affinities of my Electric Oil, and the New vehicle fluid of the human body.
These modes operate by giving and ever changeable Rheumatic pains, is imperfectly understood by mankind; whether its location is the membrane or covering of the nerves, inflamed by derangement, (like the coating of an inflamed stomach,) or more distinct as the electric fluid itself; certain it is that my Electric Oil is readily absorbed into, if it does not actually supply a needed deficiency in, and equalize the circulation of that great principle of life's organization.
Let the skeptical and the humane look into this matter—for if these things are so, all are alike interested. I will have my case from the hospitals to test it for all—My Electric Oil is plaintain and innocent, in danger of cold or reaction, as all will bear me witness. Come and see for yourself—near Chestnut street, 89, South Eighth street; 40cts. and $1 per bottle.

Newburgh, April 10 h, 1858.

St. John B. Sanborn, Esq.,
Dear Sir:—In reply to your request, asking my opinion with regard to the Composition Roofing patented by C. R. Milne, I have to state that I have examined the matter carefully, having watched its application in various places and in some very different ones, which it has been impossible to single the bestanges of with any other known compound. I have no hesitation in pronouncing, so far as its Water Proof qualities are concerned, essentially the best, and as this Fire Proof qualities, having examined the roofs of Hooter Remedies, Nos. 1 and 2, and the roof boards completely charred through, and at the same time the Composition remains entirely untouched by the fire, although the roofs were covered with falling brands and cinders. I therefore consider it essentially both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with Wells's patent,) I have no hesitation in pronouncing it the very best thing extant, both as a Fire and Water Proof Composition for Roofing purposes.
Having felt an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the winters of this climate, we were induced in September last to apply, as an experiment, some of C. R. Milne's Mastic Roofing on a Tin roof adjoining our office, (said roof being much exposed to the action of the weather, and also the rain and snow from another roof,) we find at this date said roofing in the most perfect order, and believe the great question of how does it stand the "winter" is settled, and that C. R. Milne's Roofing must prevail over all other Mastic Roofing in use.

MEDICAL.

ONE DOLLAR
WILL BUY
ONE OF THE BEST PURGATIVE and LIVER MEDICINES now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.
DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums.
Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its Colleterious effects.
Though possessing rare medicinal powers, these Gums have but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, with more than unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaint in their worst forms.
INDIGESTION being caused by a deranged Liver is cured when the Liver is excited to action.
HEADACHE is caused by improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.
DYSPEPSIA is often permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels acc le te to a healthy and natural state, and work as regularly as clock work.
SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.
For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating hearty. For a *family medicine* generally, all who use it speak in the highest terms.
DR. SANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Complaints, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians it is to favor, induced us to try it, and now convictions certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if you have *Consumption* or *Liver Complaint* in its favor, and fail to try this the greatest remedy in the world.—*State Rod.*
We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as Dr. Sanford's Invigorator. It is the opinion of those of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in having them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief; it has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

AYER'S
CHERRY PECTORAL!
FOR THE RAPID CURE OF
Coughs, Colds and Hoarseness.

BRENTWOOD, Mass., Dec. 20th, 1855.
DR. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints.
HENRY KNIGHT, M. D.
A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your *Pectoral* myself and in my family ever since you introduced it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."
Croup, Whooping Cough, Influenza.
BRUNSWICK, Me., Feb. 1, 1856.
BENJAMIN ATKINSON.—I will cheerfully certify your *Pectoral* is the best remedy we possess for the cure of whooping cough, croup, and all the usual diseases of children. We, of your fraternity in the South, appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.
AMOS LEE, Esq., Montezuma, Ia., Jan., 1856: "I had a tedious Influenza, which confined me indoors six weeks; took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. Two bottles of it did more relief in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can have, and in this section, Doctor, and your remedies, are the poor man's friends."
Asthma or Phthisic, and Bronchitis.
WEST MANCHESTER, PA., Feb. 4, 1856.
SIR:—Your *Cherry Pectoral* is performing marvelous cures in this section. It has relieved from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.
HENRY L. PARKE, Merchant.
We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.
Consumption.
Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even in these the *Cherry Pectoral* affords relief and comfort.
Consumptives do not despair till you have tried Ayer's CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

DR. TILTON, having returned from his South-ern tour, has taken rooms at the Massasoit House, Chicago, where he will now devote his time exclusively. Those who suffer from Consumption, Indigestion, Nervous Debility or Weakness, will do well to call on him and have his advice. His
GREAT EAST INDIA REMEDIES,
Which he discovered in Calcutta after many years of research and labor, have become so thoroughly known and appreciated, that an attempt has been made by a few avaricious parties, while in Chicago, to gain, by misrepresentation, to counterfeit it; therefore, Dr. Tilton cautions the public not to buy this worthless drug as the genuine, no matter how represented, as no one but himself in the United States has the possession of the original receipt. Dr. Tilton may be consulted at Room B, Massasoit House, Chicago, where he has for years succeeded in successfully curing hundreds of terrible cases of Consumption, Nervous Debility and Indigestion, Asthma, Bronchitis, Coughs and Colds. The New Inspection of Chicago Spring Wheat.

☞ To prevent any misunderstanding on the part of our readers and the public, we give below the designation of the various grades into which Chicago Spring Wheat will be inspected in this market on and after the 15th of June, proximo:

Chicago Club Wheat.
No. 1 Spring Wheat.
No. 2 Spring Wheat.
Rejected Spring Wheat.

The "Chicago Club Wheat" grade is intended to comprise a very superior quality of Spring Wheat which comes to this market, of the kind known as "Club," or equal to it in every respect. It must be entirely free of dirt, oats, or other substances—have a plump, sound berry, and be perfectly sound.

"No. 1 Spring Wheat" will represent the lower qualities of that which is at present classed as "Extra." It must be perfectly free from dirt, screenings, and other substances, and be sound and dry. This grade will, in all probability, be our standard Wheat.

"No. 2 Spring Wheat" will represent our common Spring Wheat, sound and dry, but mixed with dust, or other substances. All good Wheat coming to this market in a dirty condition will be inspected into this grade.

"Rejected Spring Wheat" will represent all wheat coming to this market in an unsound or damaged condition, whether it be dirty or clean.

The Chess Tournament at Davenport—Paulsen Winner of Eight Games.

DAVENPORT, May 23d, 1858.

Mr Paulsen's Chess Tournament which began on Wednesday night, closed last night; Mr. Paulsen winning eight out of the ten games.—Large and appreciative audiences attended the Tournament every night, and when the result was announced last evening, the spectators manifested their delight in hearty cheers. The following table will show the number of moves made and the result of each game:

White.	No. 1.	Black.

In game No. 9, Mr Paulsen gave check at the 24th move, called "check-mate at next move." An examination of the game proved that check mate was inevitable the next move and Mr. T. resigned. All who attended the Tournament say that Mr. Paulsen's memory, power of play and rapidity of combination went beyond their expectations. He did not show any fatigue during the Tournament; indeed his playing was, if possible, more rapid and brilliant last night than upon any previous evening.

RAISING NED.—The wife of the President of one of our Universities, in congratulating her friend on the birth of a little girl whom she named Jessie, wrote:—"Since you have given your husband Jessie, we shall probably next hear of your raising Ned."

☞ Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for restoring the hair, to the head of the bald, to grow forth with a much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that his is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color and makes it assume a beautiful silky texture, which has been very destructive in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently aunty old maids make victims of handsome, good-natured, young gentlemen; and he says, 'poverty is the only cause,' but, gentlemen, until lately when it was attributed to the use of this invaluable Hair Restorative.—Louisville Journal. RAILROAD!

THIS New and Direct Route now open to New York, Boston, Philadelphia, Baltimore, Pittsburg and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between

CHICAGO AND THE EAST.

FARE AS LOW AS BY OTHER ROUTE.

☞ Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.

Trains leave Depot on VAN BUREN ST., daily as follows:

8:00 A. M. 8.45 P. M.

With but one change of cars to Pittsburg, Ft. Wayne & Chicago.

CHECKING BAGGAGE THROUGH.

To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all points in the East. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.
